

TLQAA WP4: Support to Self Study Reporting

April 16-19, 2013

- Programme -

The support to the self study reporting is organized in the form of visits to the Lebanese Higher Education Institutions partners of the project by the European Experts partners to discuss the progress in the self-study and any relevant issue. A central national meeting organized in cooperation with the Tempus Office – HERE and the Lebanese University is also conducted on the “Internal Quality Assurance” theme.

For the institutions visits, the hosting institutions are responsible for the organization of the respective meetings (place, hall, content etc.). As an example, the meeting might start with a brief presentation of the institution followed by a short description of the process of self study reporting that has been put in place. Then the discussions might be open.
